- Set-up Miracle w/ Digital Player https://youtu.be/Gaa6MOK6Iok
- Operating FiiO Digital Player  http://ow.ly/Sidx30c0nzS
YELLOW: Miracle Cylinder plug ins; 3 cords.
RED: Audio Player.
GREEN: Power switch & Amber lights button; Power cord/Power supply.
BLUE: Speaker & charger for speaker.

INSTRUCTIONS

1. Prepare the power supply but make sure it is not yet connected to an electrical outlet. Be sure that the power switch button (green) at the back of the amplifier is in off position.
2. Plug in scalar coils (yellow) into 3 plugs at the back of the amplifier.
3. Plug in the power cord (green).
4. Plug in speaker and its charger (blue).
5. Plug in the audio player and charger for audio player (Red-top).
6. Put the audio player on pause to avoid power surges.
7. Once all the components are plugged in, connect power supply into an electrical outlet and then make sure that power switch button is on (it will also turn the Amber lights on).
8. Turn on audio player (press button at the upper left side of the audio player). Select AM/PM soundtrack. Hit play. (See detailed instructions on the Quick Start Player Guide)
9. Congrats on your success!!! You will see the red LED lights flashing on the top of your Miracle cylinder indicating that you have successfully activated your Miracle!
Quick Start Player Guide

Welcome! This Quick Start Guide is intended to help you begin outputting audio from your music player as quickly as possible. We have preset your audio player for immediate use. Please refer to the video and user guide links below for more in-depth information.

FiiO X1 gen II Support & Firmware:
http://fiio.net/en/supports/41
Quick Start Player Guide

1. Push the Power button. Top left, on the left side.

2. Use the Next Track and Previous Track buttons to highlight Browse Files folder.

3. Tap the Select/Play/Pause button to browse music.

4. The soundtracks are pre-loaded and will contain “AM” or “PM” in the title. Highlight the desired folder and press Select/Play/Pause twice to play.
Quick Start Player Guide

Lock/Unlock

The power key will lock and unlock the player buttons. Volume control keys still function while lock is enabled.

Power Button

Setting Volume

90 ≤

Maintain volume at 90 or below. Exceeding 90 will distort waveforms and will cause overheating. Damage may occur!

Turn down volume if heat exceeds 30°C/86°F degrees.

Volume between 60-90% is the optimal range. Insufficient volume will not fire the LED lights.
Quick Start Player Guide

Setting Repeat Options

1. Ensure a soundtrack is playing.

2. Tap the Shortcut key on top left to access the Shortcut Menu.

3. Use Left/Right navigation to highlight desired repeat option.

4. Select desired repeat option with the center key. In general, leave setting on repeat all.

5. Complete! Tapping the Shortcut key twice will show which repeat option is currently enabled.

**Step #35**: Click, “View Results”

**Note**: A White screen with a blue graph pops up.

**Step #36**: Click, “Print Preview” (on the top of the Program’s Screen)
Quantum Structured Water

Blending Instructions

1. MIX one ounce or more of Quantum Concentrate to 1 gallon of distilled water. Each bottle will make 8 gallons.

2. PLEASE VIGOROUSLY SHAKE THE CONTAINER FOR A FEW SECONDS. Cooler temperatures are beneficial. You can increase the amount of concentrate to increase the potency of your beverage. For maximum power and best results, we suggest mixing 1-2 ounces of concentrate to one gallon of distilled water.

3. Use a 1-ounce plastic measuring cup or the cap of the water bottle (2) to add concentrate to distilled water (or high-quality spring water). Distilled water has been stripped of all memory and hard particles that interfere with frequencies. The frequencies have been added to the water so they act as a tuning fork in the body.

Quantum Structured Water Suggested Practices

Dehydration can be a major health problem. Our water super-hydrates and, if given a choice, should be the only water you drink. We recommend drinking at least two gallons per week. As Quantum Structured Water liberates energy, we recommend that you consume SUPERCALM PM structured water after 6 PM.

Quantum Structured Water has the correct structural geometry to perfectly penetrate the membranes of cells and deliver the ingredients. We encourage you to drink or mix our water with any food, herbal shakes, protein powders, herbs, or vitamin supplements to boost the body’s ability to absorb healthy nutrients.
